Gentlemen:

The Department of Energy's (DOE) Environmental Restoration Division is transmitting the enclosed document entitled "Geologic Characterization Report". This report incorporates into one comprehensive document all of the Rocky Flats geologic data prior to 1989. The information of this report may assist in the review of IAG documents. DOE would like you to supply comments on this report in order to achieve close agreement on various geologic issues at the Plant. Tentatively, the final document is scheduled to be completed in December and, therefore, comments should be submitted by December 2, 1991.

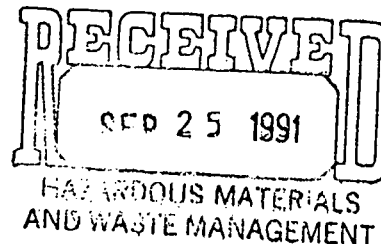

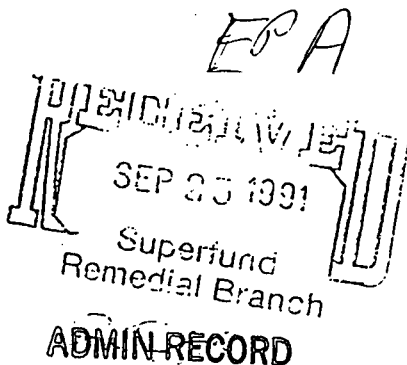

If you have any questions, please contact Brent Lewis of my staff at 966-4765.

Sincerely,

David P. Simonson
Assistant Manager
for Environmental Management
